Kevin Baluyot

FULL STACK SOFTWARE ENGINEER

kevincbaluyot33@gmail.com • 818-671-7747 • LinkedIn • Github • Portfolio • Los Angeles, CA

Full stack software engineer graduate from App Academy with experience building web applications using React, Node.js, SQL, and AWS. Always strives to deliver value to the team and organization. Excellent at learning necessary and new technology. Currently pursuing roles that will allow me to demonstrate my strong work ethic and interpersonal skills and to contribute my skill set to develop software that results in both professional and personal improvements.

LANGUAGES • JavaScript • Python • C# • SQL • HTML • CSS • Git
TECHNOLOGIES • Node.js • Express • Flask • React • Redux • AWS • Socket.IO / WebSockets • Postgres

PROJECTS

MLS (My Love Story) | **Github** | **Live** (*React.js, Redux, Postgres, AWS, Python, CSS, HTML, Node.js, Flask*)
- Leveraged Redux to optimize the information management of React components, resulting in DRY readable code and increasing scalability of a single page application
- Incorporated AWS with signed up users to upload and edit images along with a react spinner and carousel.
- Added an on change category filter and by newest from top to bottom for reading stories.

taskPanda | **Github** | **Live** (*React.js, Redux, Postgres, AWS, Python, CSS, HTML, Node.js, Socket.IO, Flask*)
- Collaborated with team members using Git workflow and Slack to achieve features in a timely manner, while switching between both frontend and backend
- Designed a search feature that pulls results from PostgreSQL database allowing users to filter by keyword that includes Socket.IO, which enables live chat in real time.

RelaxationBnb | **Github** | **Live** (*React.js, Redux, Postgres, Express, CSS, HTML, Node.js*)
- Implemented user authentication and authorization features for role-based access control/
- Utilized SQL queries and database transactions to ensure data integrity.
- Integrated Redux for managing application state and handling data flow.

EDUCATION

APP ACADEMY • Full Stack Web Development   **Completed 07/2023**
- 1000+ hours of intensive full-time software development education over the course of 6 months.
- Learned how to author clean code, build full stack web applications, debug software, and work with a team as a software engineer.
- Created multiple applications with a single page application architecture, HTTP backend, and SQL database.

WORK EXPERIENCE

Professional Dancer • *Go 2 Talent Agency* • Burbank, CA   **10/2017 – Present**
- Collaborate closely with choreographers to interpret and execute choreography, bringing artistic visions to life.
- Continuously develop and adapt dance skills to suit various performance environments, whether on stage, screen, or site-specific locations.
- Delivered education, teaching, and mentorship in a wide range of dance styles to students of all ages including, returning learners.

Manager • *All About Poke* • Studio City, CA   **05/2017 – 09/2022**
- Lead and managed a team of 5, kitchen staff, and servers.
- Address any operational issues, customer complaints, or staff conflicts in a timely and effective manner.
- Created a positive work environment that fostered teamwork, camaraderie, and a sense of pride among employees.
